

Name : SRADHA KEDIA

Date and time : 01/04/2021, 9:30AM to 12:30AM

Examination Roll no. : 20234757053

Name of the Programme : MCA

Semester : I

Unique Paper Code : 223401105

Title of the Paper : Technical Communication

Email ID : 200083@cs.du.ac.in

Mobile no. : 8840502121

Total no. of pages : 5

20234757053

Question 6 →

- (b) The new draft National Education policy released by the government earlier, recommend a slew of impressive measures that aim to revolutionize the Indian education system, right from the primary schooling to higher education. Being specific to higher education, three year course is shifted to 4 year degree. I support this motion.

Under the four year programme, a student can exit after one year with a certificate, after two year with a diploma and after three year with bachelor's degree. But the three year old course had this drawback. This saves time and money for those who can't complete their graduation and need to exit for some reasons.

This four year programme helps in enrolling for PhD earlier in order to ~~enroll~~ for PhD you have to follow -

UG → PG → Mphil → PhD
(Undergraduate) (Post graduate)

This help those who can't invest much time and as a result need to quit from PhD

Multi-disciplinary approach, The NEP aims for broad-based flexible learning. Institute offering single stream (such as technical education) must be phased out and all universities & colleges must ~~fall under~~ focus on becoming multidisciplinary by 2030.

(C) 1) Despite the fact that education and SME loans were skyrocketing in April 2020, the customer credit jumped but economists are wary for symbolizing it as a real pickup in demand because it might suggest that the customers are relying more on credits due to crippling economy. Optimistically speaking, the customers and also the sellers are developing mutual trust in the economy.

2) a) Anemic refers to the crippling state of job growth.

b) Outstanding customer credit played an important role in economic growth at the beginning of year 2020.

c) The customer credit numbers ~~less~~ has been increasing since October 2019 with an exponential spring in April 2020.

20234757053

- (d) Economists say that increase in customers, credit might signal growth but it could also suggest the customers relying more on credit due to downturn state of affairs of economy is in.

6(a) There are three types of communicational models -

- 1) Linear Communication Model - The message flow in straight line from sender to receiver.

- no concept of feedback
- One way communication
- Used for mass communication

Pros - good at audience persuasion.

Cons - no way to know if communication is effective.

- 2) Transactional Model - here sender and receiver both are known as communicators and both play an equally important role. It is used for interpersonal communication and simultaneous feedback is expected.
- Pros -
- Cons - It encourages Non-verbal communication.

eg - Buzland's Model

3) Interactive Model - This type of model is used for new communications like internet

- due to different medium of communication the feedbacks are slow.
- If the receiver does not respond that makes it linear communication.

Pos - More convenient than other models.

Cons - feedback can take longer or no feedback is also possible.

eg - Schramm's model, White's Model.
